1	n/a
2	The topics of diffusion and kinetics were excellently explained in terms of materials science which made it very relevant.
3	The course was good. There was a lot of repeating of previous courses, but I liked the review.
4	The course was well planned and organized
5	The course had underclassmen that did not have the prerequisites needed to take the course, which made some topics that the professor was covering seem dull and repetitive.
6	I'd suggest adding assignments to the course, not just grading based off of two tests.
7	Excellent course

Faculty: Shi, Donglu

Response Rate: 100.00% (7 of 7)

1	n/a
2	Prof. Shi is always approachable and did a very good job teaching this material.
3	Makes sure everyone understands what is going on.
4	I think that this professor could be more personable with the class. He has had most of us in class before, and does not know our names.
5	Excellent professor
6	Dr. Shi was always well prepared, and available for questions.
7	Dr Shi is an amazing professor and I've relished every class I've had with him.
