Q7 - Please enter any comments about the professor in the box below:

Faculty: Donglu Shi

Response Rate: 50.00% (5 of 10)

1	The material was interesting to hear about and attempt to learn. My biggest drawback is that the class requirements/description don't really explain how in-depth some of this material is, and it can get very confusing very quickly. You are encouraged to ask questions, and I respect that. However, I got to a point where I didn't even understand it enough to ask a question.
2	Infinte Knowledge
3	Dr. Shi, I would say sparked curiosity inspiring discussions and in all, it is evident from the same, that the class learnt more about not just the contents of the course but also became able to make connections with previously learnt materials and that which will be perhaps pursued by all.
4	Boundless wisdom, I would highly recommend this class to other students.
5	A lot of material on energy, and not as much on biomedical materials as the course description made it seem.
